i About Gurukulam

Our aim is that the students studying in Jai Gau Mata (JGM) Gurukulam should get 95-97 percent marks, but not only and only bookworms should remain. The education of the student should be multifaceted. Students should have all kinds of knowledge and knowledge. Not only should we give Indian ancient Gurukuliya education to children, but make children familiar with the modern environment as well. If students speak Sanskrit shloka, then they should also have knowledge of running a computer. If the student comes to Hindi, then he should not lag behind even in speaking English.
